

AR-TS Plastic Air Blow Gun

Product Overview

The AR-TS is a lightweight plastic air blow gun for dust removal, machine cleaning, and general pneumatic workstation use.

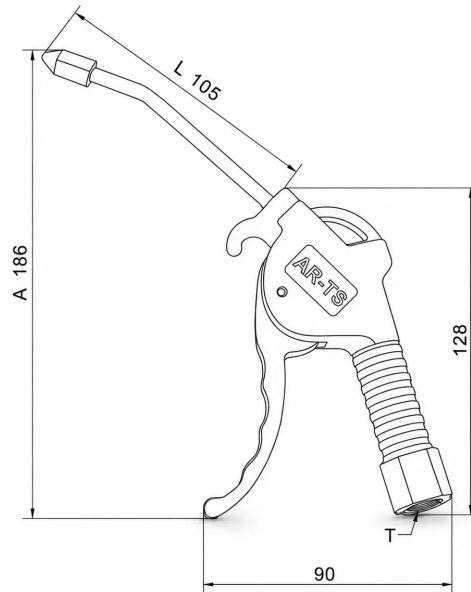

Key Features

- Lightweight plastic body for comfortable routine operation.
- Standard and long nozzle options for different access requirements.
- Designed for filtered compressed air systems.
- 1/4 in PT connection for common pneumatic installations.
- Suitable for dust removal and machine cleaning.
- Practical for OEM equipment and distributor supply.

Technical Specifications

Parameter	Specification
Product Name	AR-TS Plastic Air Blow Gun
Series	AR-TS Series
Model Options	AR-TS, AR-TS-L
Product Type	Plastic air blow gun / pneumatic air duster gun
Working Medium	Filtered compressed air
Operating Temperature	-10 °C to 50 °C
Working Pressure	0 to 10.0 kgf/cm ²
Body Material	Plastic
Connection Thread	1/4 in PT
Length Options	Standard nozzle and long nozzle options
Accessories	PM20 fitting option
Typical Application	Dust removal, machine and workstation cleaning
Selection Checks	Model, nozzle length, thread, pressure, hose and fitting

Model Selection and Dimensions

Model	A	L	T	Accessories
AR-TS	186 mm	105 mm	1/4 in PT	PM20
AR-TS-L	335 mm	265 mm	1/4 in PT	PM20

Applications

- Workshop cleaning and routine machine maintenance.
- Assembly lines and production workstations.
- Pneumatic tool areas and general dust removal.
- OEM equipment and distributor stock programs.

Operating Guidance

Use filtered compressed air within the specified pressure and temperature range. Select the standard or long nozzle according to reach and access needs.

Safety Notes

- Do not direct compressed air toward people or unprotected skin.
- Isolate and depressurize the air supply before installation or service.
- Confirm thread compatibility and secure all connections before use.
