

A001 Plastic Air Blow Gun

Product Overview

The A001 is a lightweight plastic air blow gun with a stainless steel barrel for compressed air cleaning, dust removal, and workshop maintenance.

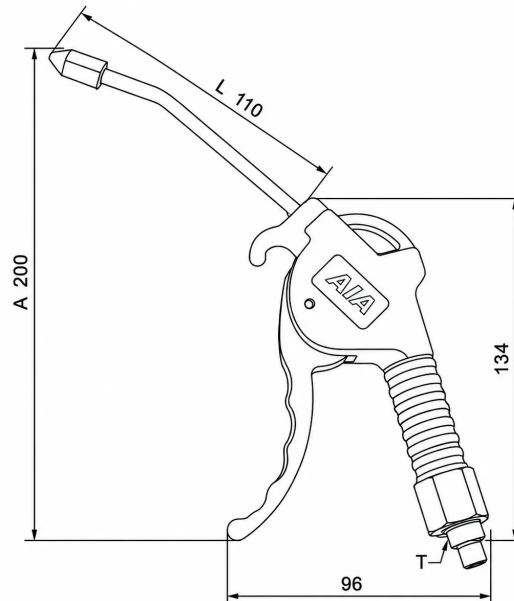

Key Features

- Ergonomic plastic body for comfortable repeated operation.
- Standard and long nozzle options for different access requirements.
- Stainless steel barrel supports durability and deformation resistance.
- Protective barrel cover helps reduce workpiece scratches.
- Designed for filtered compressed air systems.
- Practical for OEM equipment and distributor supply.

Technical Specifications

Parameter	Specification
Product Name	A001 Plastic Air Blow Gun
Series	A001 Series
Model Options	A001, A001-L
Product Type	Plastic air blow gun / pneumatic air duster gun
Working Medium	Filtered compressed air
Operating Temperature	-10 °C to 50 °C
Working Pressure	0 to 10.0 kgf/cm ²
Body Material	Plastic
Barrel Material	Stainless steel barrel
Connection Thread	1/4 in PT
Length Options	A001: 200 mm; A001-L: 350 mm
Accessories	PM20 fitting option
Typical Application	Dust removal, machine and workstation cleaning
Selection Checks	Model, nozzle length, thread, pressure, hose and fitting

Model Selection and Dimensions

Model	A	L	T	Accessories
A001	200 mm	110 mm	1/4 in PT	PM20
A001-L	350 mm	270 mm	1/4 in PT	PM20

Applications

- Workshop cleaning and routine machine maintenance.
- Assembly lines and production workstations.
- Narrow or recessed areas using the A001-L long nozzle.
- OEM equipment and distributor stock programs.

Operating Guidance

Use filtered compressed air within the specified pressure and temperature range. Select A001 for general cleaning or A001-L for deeper and less accessible areas.

Safety Notes

- Do not direct compressed air toward people or unprotected skin.
- Isolate and depressurize the air supply before installation or service.
- Confirm thread compatibility and secure all connections before use.
