

A015 Plastic Air Blow Gun for Pneumatic Cleaning

Product Overview

The A015 is a lightweight plastic air blow gun with a copper 1/4 PT internal thread inlet and standard or long barrel options for pneumatic cleaning.

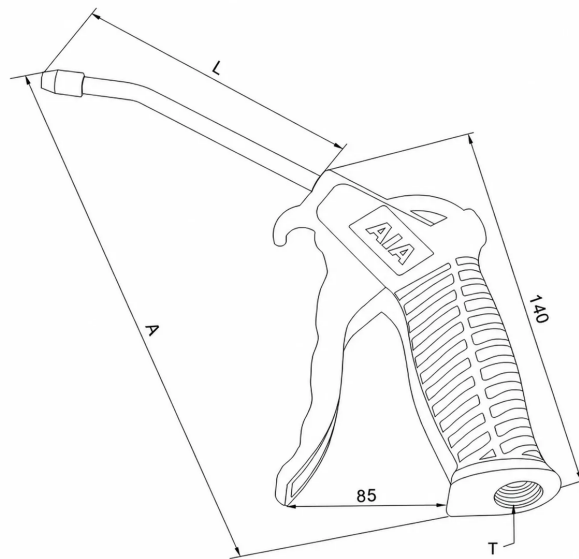

Key Features

- Lightweight humanized design for convenient daily operation.
- Copper 1/4 PT internal thread inlet supports connection durability.
- Standard and long barrel options for different access requirements.
- Suitable for narrow, deep, high, or hard-to-reach cleaning areas.
- Custom barrel length available for special equipment layouts.
- Practical for industrial workshops, distributors, and OEM users.

Technical Specifications

Parameter	Specification
Product Name	A015 Plastic Air Blow Gun
Model Options	A015, A015-L
Working Medium	Filtered compressed air
Operating Temperature	-10 °C to 50 °C
Working Pressure	0 to 10.0 kgf/cm ²
Body Material	Plastic
Air Inlet	Copper metal 1/4 PT internal thread
Accessories	PM20 pneumatic fitting option
A015 Size	L 110 mm, A 250 mm
A015-L Size	L 270 mm, A 510 mm
Typical Application	Dust removal, narrow-area blowing, drying and cleaning
Customization	Barrel length can be customized

Model Selection and Dimensions

Model	L	A	T	Accessories
A015	110 mm	250 mm	Copper 1/4 in PT	PM20
A015-L	270 mm	510 mm	Copper 1/4 in PT	PM20

* Barrel length can be customized.

Applications

- Narrow, deep, high, and hard-to-reach area cleaning.
- Workshop cleaning and machinery maintenance.
- Molds, fixtures, assembly lines, and production workstations.
- OEM equipment and pneumatic tool distribution programs.

Operating Guidance

Use filtered compressed air within the specified range. Select A015 for general cleaning or A015-L for deeper and more difficult access, and confirm inlet fitting compatibility.

Safety Notes

- Do not direct compressed air toward people or unprotected skin.
- Isolate and depressurize the air supply before installation or service.
- Confirm thread compatibility and secure all connections before use.
