

A012 Metal Air Gun for Compressed Air Cleaning

Product Overview

The A012 is a compact all-metal aluminum air gun for compressed air cleaning, chip blowing, drying, and routine machinery maintenance.

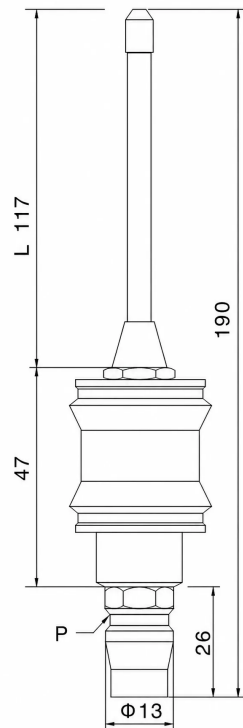

Key Features

- All-metal aluminum body for durable daily operation.
- Compact 117 mm size for convenient carrying and storage.
- Quick connector option for convenient compressed air hose connection.
- Simple connection to existing compressed air systems.
- Suitable for dust removal, chip blowing, and surface drying.
- Practical for machinery, fixtures, and restricted workspaces.
- Custom barrel length available for different reach requirements.

Technical Specifications

Parameter	Specification
Product Name	A012 Series Metal Air Gun
Model	A012
Working Medium	Filtered compressed air
Operating Temperature	-20 °C to 60 °C
Working Pressure	0 to 10.0 kgf/cm ²
Body Material	Aluminum
Overall Length	117 mm
Connection Option	Quick connector
Typical Applications	Dust removal, drying and machinery cleaning
Customization	Barrel length can be customized
Selection Checks	Connector, hose, pressure, barrel length and application

Model Selection and Dimensions

Model	L	P	Accessories
A012	117 mm	Quick Connector	-

* Barrel length can be customized.

Applications

- Workshop cleaning and machinery maintenance.
- Production workstations, component drying, and surface preparation.
- Molds, fixtures, housings, and internal equipment areas.
- Restricted spaces where a larger air gun is inconvenient.

Operating Guidance

Use filtered compressed air within the specified range. Confirm the quick connector and hose size before use, and select the barrel length according to the required reach.

Safety Notes

- Do not direct compressed air toward people or unprotected skin.
- Isolate and depressurize the air supply before installation or service.
- Confirm connector compatibility and secure the hose before use.
