

Mini Automatic Retractable Air Hose Reel 9M

Product Overview

This compact automatic retractable air hose reel provides organized compressed air access for workshops, machinery maintenance, assembly stations, garages, and production lines.

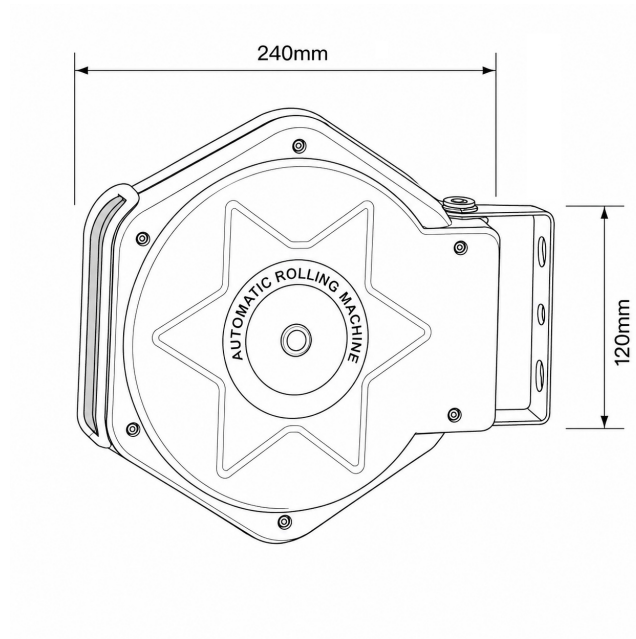

Key Features

- Automatic spring rewind keeps the air hose neatly stored.
- 9 m PU braided hose provides practical workstation reach.
- 8 x 5 mm hose size for compact pneumatic installations.
- 16 bar rated pressure with 60 bar burst pressure.
- Engineering-grade ABS housing protects the rewind mechanism.
- Steel self-locking quick coupler supports convenient tool changes.

Technical Specifications

Parameter	Specification
Product Name	Mini Automatic Retractable Air Hose Reel
Product Type	Automatic rewind pneumatic hose reel
Hose Size	8 x 5 mm
Hose Length	9 m
Hose Material	PU braided air hose
Rated Working Pressure	16 bar
Burst Pressure	60 bar
Air Coupler	Standard steel self-locking quick coupler
Housing Material	Engineering-grade ABS
Retraction Method	Automatic spring rewind
Typical Applications	Workshops, machinery, assembly, garages and production
Selection Checks	Hose, coupler, inlet, pressure and mounting position

Model Selection and Dimensions

Model	Meter
8 x 5	9 m
8 x 5 PU braided air hose	9 m

Applications

- Workshop air supply for blow guns and small pneumatic tools.
- Machinery repair, inspection, and pneumatic servicing.
- Assembly benches and localized production line air supply.
- Garage, tire maintenance, and general service areas.

Installation Guidance

Install the reel in a stable position with unobstructed hose travel. Confirm the inlet connection and coupler standard, and keep the hose path clear during extension and rewind.

Safety Notes

- Do not exceed the rated working pressure.
- Isolate and depressurize the air supply before installation or service.
- Inspect the hose and coupler regularly and replace damaged components.
