

## Automatic Retractable Air Hose Reel 10-30M

### Product Overview

This automatic retractable air hose reel provides organized compressed air access with multiple hose diameters and 10-30 m length options for industrial work areas.

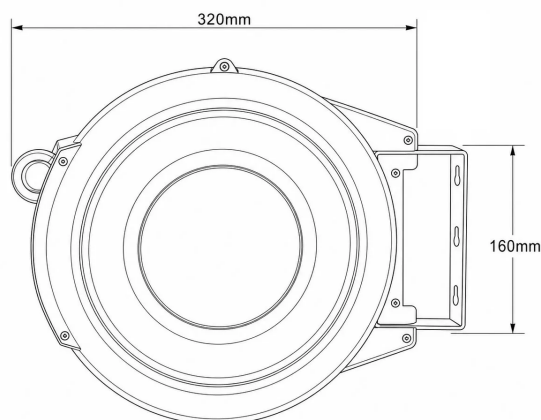

### Key Features

- Automatic spring rewind stores the hose neatly after use.
- Three hose sizes support different airflow requirements.
- Flexible 10-30 m length selection for different working distances.
- 16 bar rated pressure with 60 bar burst pressure.
- Engineering-grade ABS housing protects the rewind mechanism.
- Steel self-locking quick coupler supports convenient tool changes.
- Suitable for wall or workstation installation.

### Technical Specifications

| Parameter              | Specification                                          |
|------------------------|--------------------------------------------------------|
| Product Name           | Automatic Retractable Air Hose Reel                    |
| Product Type           | Automatic spring rewind hose reel                      |
| Rated Working Pressure | 16 bar                                                 |
| Burst Pressure         | 60 bar                                                 |
| Housing Material       | Engineering-grade ABS                                  |
| Air Coupler            | Standard steel self-locking quick coupler              |
| Available Hose Sizes   | 8 x 5 mm, 10 x 6.5 mm, 12 x 8 mm                       |
| Available Hose Lengths | 10 m, 12 m, 15 m, 20 m, 25 m and 30 m                  |
| Retraction Method      | Automatic spring rewind                                |
| Typical Applications   | Workshops, machinery, production, garages and assembly |
| Selection Checks       | Hose, pressure, coupler, inlet and mounting position   |

## Model Selection and Dimensions

| Model       | Meter                                     |
|-------------|-------------------------------------------|
| 8 x 5 mm    | 10 m, 12 m, 15 m, 20 m, 25 m              |
| 10 x 6.5 mm | 10 m, 12 m, 15 m, 20 m, 30 m (Customized) |
| 12 x 8 mm   | 10 m, 12 m, 15 m, 20 m, 25 m (Customized) |

## Applications

- Workshop air supply for blow guns and pneumatic tools.
- Machinery repair, inspection, and maintenance areas.
- Manufacturing, packaging, assembly, and inspection stations.
- Garage, tire servicing, and general compressed air work.

## Installation Guidance

Install the reel on a stable wall or workstation with unobstructed hose travel. Confirm hose size, inlet connection, coupler standard, and mounting position before installation.

## Safety Notes

- Do not exceed the rated working pressure.
- Isolate and depressurize the air supply before installation or service.
- Inspect the hose and coupler regularly and replace damaged components.
