

A005 Plastic Air Blow Gun

Product Overview

The A005 is a lightweight plastic air blow gun with multiple nozzle options and customizable barrel length for compressed air cleaning and maintenance work.

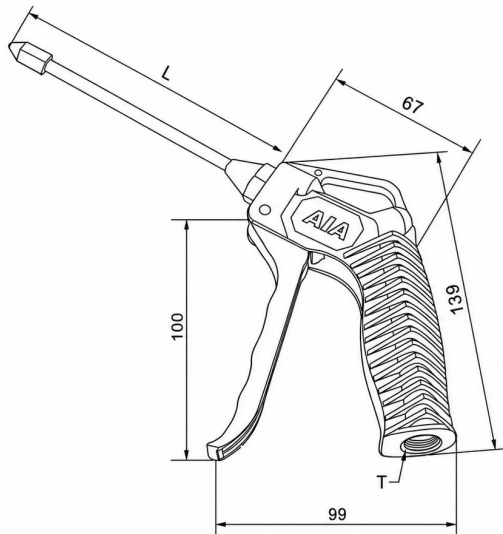

Key Features

- Five nozzle styles for different airflow and access requirements.
- Lightweight plastic body for comfortable repeated operation.
- Stainless steel barrel and spring support routine durability.
- Protective front sleeve helps reduce workpiece scratches.
- 1/4 in PT connection for common pneumatic installations.
- Custom barrel length available for OEM requirements.

Technical Specifications

Parameter	Specification
Product Name	A005 Plastic Air Blow Gun
Series	A005 Series
Model Options	A005, A005-S, A005-L, A005-A, A005-D
Product Type	Plastic air blow gun / pneumatic air duster gun
Working Medium	Filtered compressed air
Operating Temperature	-20 °C to 60 °C
Working Pressure	0 to 10.0 kgf/cm ²
Body Material	Plastic
Barrel / Spring Material	Stainless steel
Connection Thread	1/4 in PT
Nozzle Options	Standard, small, long, speed and large diameter nozzles
Length Options	A005: 130; -S: 20; -L: 300; -A: 25; -D: 75 mm
Accessories	PM20 fitting option
Customization	Barrel length can be customized
Typical Application	Dust removal, machine and workstation cleaning
Selection Checks	Model, nozzle, thread, pressure, hose and fitting

Model Selection and Dimensions

Nozzle Size	
Standard nozzle	
Small nozzle	
Long nozzle	
Speed nozzle	
Large diameter nozzle	

Model	L	Muzzle Size	T	Accessories
A005	130 mm	Standard nozzle	Copper 1/4 in PT	PM20
A005-S	20 mm	Small nozzle	Copper 1/4 in PT	PM20
A005-L	300 mm	Long nozzle	Copper 1/4 in PT	PM20
A005-A	25 mm	Speed nozzle	Copper 1/4 in PT	PM20
A005-D	75 mm	Large diameter nozzle	Copper 1/4 in PT	PM20

* Barrel length can be customized.

Applications

- Workshop cleaning and routine machine maintenance.
- Assembly lines and production workstations.
- Deep cleaning with A005-L or wider coverage with A005-D.
- OEM equipment and distributor stock programs.

Operating Guidance

Use filtered compressed air within the specified range. Select the nozzle type and barrel length according to cleaning distance, airflow demand, machine space, and workpiece condition.

Safety Notes

- Do not direct compressed air toward people or unprotected skin.
- Isolate and depressurize the air supply before installation or service.
- Confirm thread compatibility and secure all connections before use.
